“given choice between complexity or one on one against t-rex, grug take t-rex: at least grug see t-rex”

Summary

Educated as a Mathematical Physicist, started out with Embedded Systems, quickly ended up writing back-end code in Scala and Typescript. Currently creating scalable and resilient systems in the cloud using MongoDB, Redis, and Golang.

In my spare time, I mostly cook, walk, read, and tinker with computers. My natural habitat is in Emacs using Linux, but to bring home shiny rocks to pay for dog food I am very often seen on a mac.

If you think <https://grugbrain.dev> is hilarious and true, lets talk!

Experience

Software Engineer

QLIK

- Focused on making the biggest impact I can.
- In depth work on performance, scalability, and resiliency.
- Learned what a truly empowered team can do.

Lund, Sweden

Aug. 2021 - present

Software Engineer

UNDISCLOSED (AFRY)

- Writing functional Scala and TypeScript.
- Eventually in informal technical leadership role driving code quality and increased developer productivity.
- Learned pros and cons of a 100K people company.

Malmö, Sweden

Feb. 2018 - Aug 2021

Software Engineer

ADVENICA (AFRY)

- Embedded C/C++ on Linux implementing internet protocols for network segmentation products used in critical infrastructure.
- Learned the hard way that companies must sell their products to be able to pay for consultants.
- Learned pros and cons of a 100 people company.

Malmö, Sweden

Sep. 2018 - Dec. 2018

Education

Lund University

M.SC IN PHYSICS

Focus on theoretical and mathematical physics.

Lund, Sweden

Sep. 2016 - Jun. 2018

Lund University

B.SC IN PHYSICS

Focus on computational and mathematical physics.

Lund, Sweden

Sep. 2013 - Jun. 2016

Honors & Awards

2018

NanoLund Junior Scientist Ideas Award, For M.Sc project exploring novel applications of machine learning.

NanoLund

Stockholm

2013

Swedish Junior Water Prize., Award for high school degree project.

International Water
Institute.

Teaching a Neural Network Quantum Mechanics. A Deep Learning Approach to the N-Representability Problem.

M.Sc thesis.

AUTHOR

2018

<https://lup.lub.lu.se/student-papers/search/publication/8951887>

Numerical simulations of contact geometry effects on transport properties of semiconductor nanowires

B.Sc thesis.

AUTHOR

2016
