“given choice between complexity or one on one against t-rex, grug take t-rex: at least grug see t-rex”

Summary

Educated as a Mathematical Physicist, ended up trying to teach an AI quantum mechanics but failed subtly. “Quit school” after my master and did Embedded programming, soon I ended up writing back-end Scala and Typescript. Currently creating scalable and resilient systems in the cloud using MongoDB, Redis, and Golang.

In my spare time, I mostly cook, walk, read, and tinker with computers. My natural habitat is in Emacs using Linux, but to bring home shiny rocks to pay for dog food I am very often seen on a mac. If you think [grugbrain.dev](#) is hilarious and true, lets talk!

Experience

Software Engineer

QLIK

Lund, Sweden

Aug. 2021 - present

- In depth work on performance, scalability, and resiliency.
- Learned what a truly empowered team can do.

Software Engineer

UNDISCLOSED (AFRY)

Malmö, Sweden

Feb. 2018 - Aug 2021

- Writing functional Scala and TypeScript.
- Part in developing robust data pipeline ensuring quality and stability.

Software Engineer

ADVENICA (AFRY)

Malmö, Sweden

Sep. 2018 - Dec. 2018

- Embedded C/C++ on Linux implementing internet protocols for network segmentation products used in critical infrastructure.
- Learned the hard way that companies must sell their products to be able to pay for consultants.

Education

Lund University

M.Sc IN PHYSICS

Lund, Sweden

Sep. 2016 - Jun. 2018

M.Sc thesis: Teaching a Neural Network Quantum Mechanics. A Deep Learning Approach to the N-Representability Problem.

lup.lub.lu.se/student-papers/search/publication/8951887

Lund University

B.Sc IN PHYSICS

Lund, Sweden

Sep. 2013 - Jun. 2016

B.Sc thesis: Numerical simulations of contact geometry effects on transport properties of semiconductor nanowires

lup.lub.lu.se/student-papers/search/publication/8878322

Honors & Awards

2018

NanoLund Junior Scientist Ideas Award, Funding for continuation of M.Sc project teaching a neural network quantum mechanics.

NanoLund

Stockholm

2013

Swedish Junior Water Price, Award for high school degree project.

International Water
Institute.
